

Energetic Well Being Process Protocol[©]

- I. Make yourself and clients energetically strong
- II. Clarify direction - define the symptoms, desired state and measures
- III. Clear away symptoms and support desired state
 - Where in the (client's name) total universe is the weakest point in relation to the symptom and supporting the desired state?
 - Go to Protocols which check weak.
 - Be open to and follow your intuition and senses throughout the process.

Keep Clearing Until:

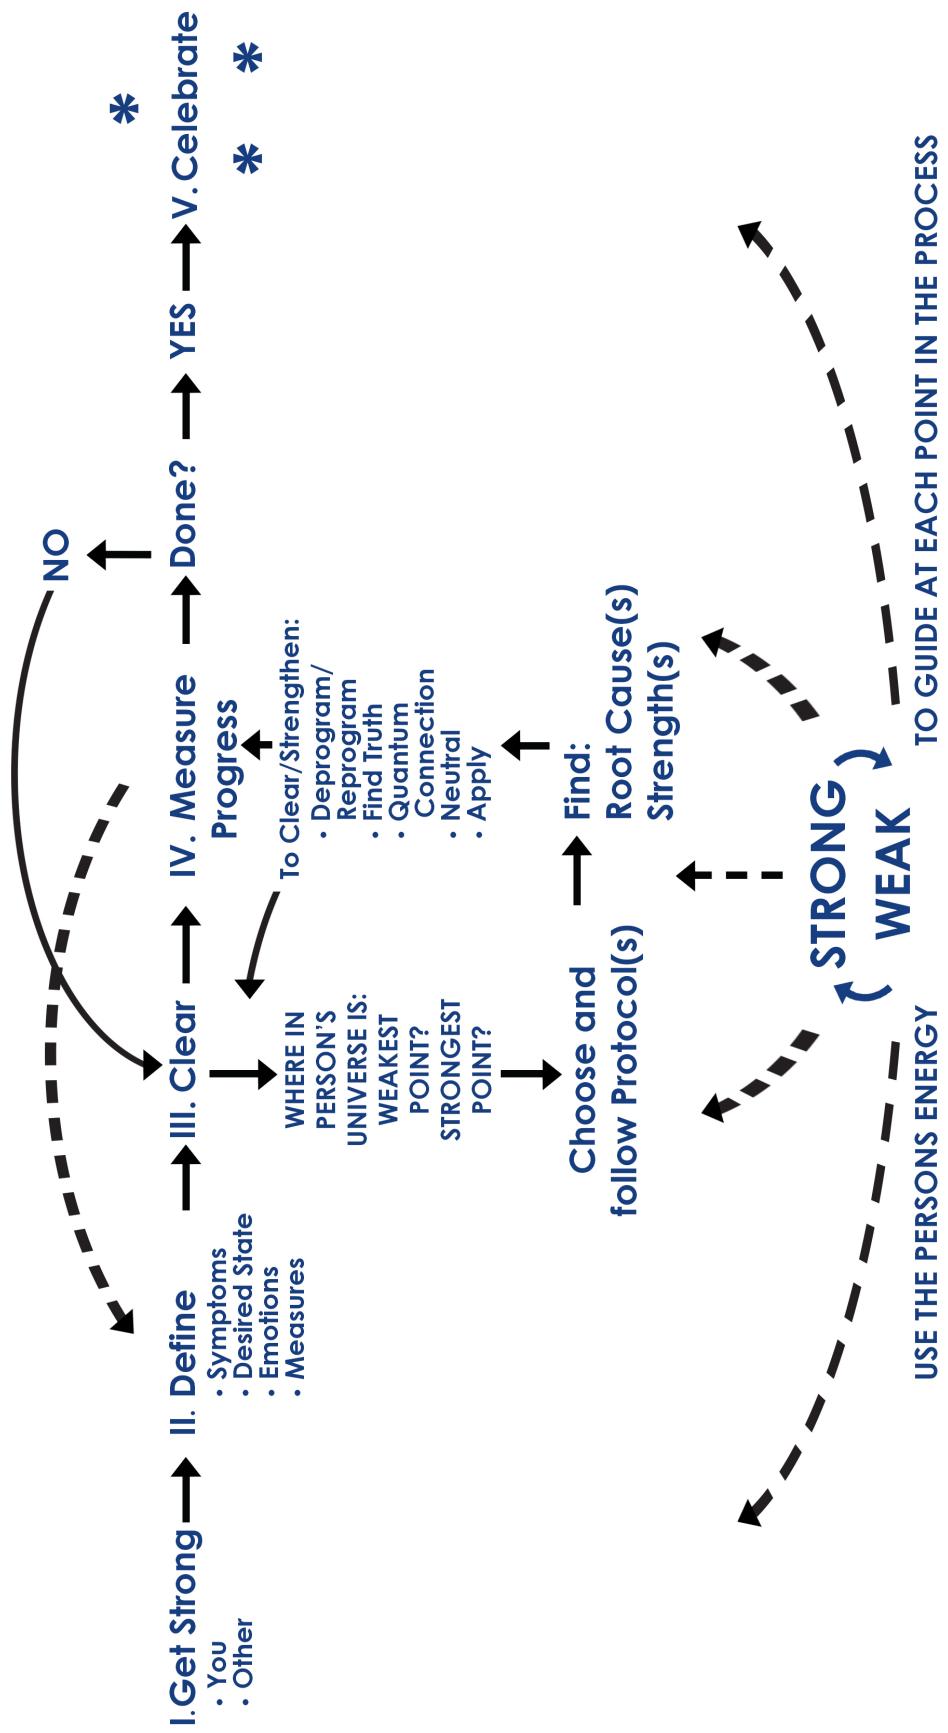

“From infinity to infinity, there’s no reason to hold on to this issue” is strong.

The measures indicate the symptoms are cleared and energy is strong for the desired state.

There’s nothing bothering the person about the symptoms that were cleared.
